SUMMARY

B.Tech Computer Science & Engineering graduate specializing in Data Science with hands-on experience in SQL, Power BI, and data analysis through academic and personal projects. Skilled in analyzing datasets, identifying trends, building interactive dashboards, and deriving actionable insights to support data-driven decision-making. Strong analytical and problem-solving abilities with an interest in data analytics and business analysis.

SKILLS

- SQL (PostgreSQL) • Power BI • MS Excel • Python • Git/GitHub • Data Analysis • Analytical Thinking
- Problem Solving • Attention to Detail • Communication • HTML • CSS

EDUCATION

B.Tech. in Computer Science & Engineering, Data Science | CGPA - 7.45 📅 2022 - 2026
DIT University 📍 Dehradun

12th in CBSE | Percent - 83.20 📅 2022
D.A.V Public School Rajender Nagar Sahibabad 📍 Ghaziabad

10th in CBSE | Percent - 82.33 📅 2020
D.A.V Public School Rajender Nagar Sahibabad 📍 Ghaziabad

CERTIFICATIONS

Introduction to Data Science in Python – Issued by **University of Michigan** via Coursera, **2025**.

Introduction to Relational Databases (RDBMS) – Issued by **IBM** via Coursera, **2024**.

Introduction to Java – Issued by **LearnQuest** via Coursera, **2023**.

PROJECTS

SQL Analysis of the Data Analyst Job Market in India 📄

Tech Stack: SQL, PostgreSQL

- Analyzed job posting data using PostgreSQL to identify **salary trends, in-demand skills, and factors influencing data analyst opportunities** in the Indian market.
- Used **CTEs, joins, conditional aggregation, and aggregations** to analyze and compare job-market trends across locations and roles.
- Derived **data-driven insights and recommendations** on skills based on demand and salary trends.

Spotify Music Analytics Dashboard 📄

Tech Stack: Power BI, DAX

- Analyzed **114K+ Spotify tracks** across **114 genres** using **Power BI** to identify what audio features, genres, and content traits relate to song popularity.
- Built custom **DAX measures** and **calculated columns** — popularity tiers, genre popularity gaps, and sort-ordered speechiness buckets — to structure the analysis across **4 dashboard pages**.
- Derived data-driven insights on which factors show a genuine relationship with popularity versus which only show a surface-level average difference, using **correlation analysis** to validate audio-feature findings.

My Portfolio [↗](#)

Tech Stack: HTML, CSS, JavaScript

- Developed a **responsive personal portfolio website** using **HTML, CSS, and JavaScript**, focused on **user experience, accessibility**, and clean design principles while showcasing projects and technical skills.

Threads of Hope: Crochet E-commerce Website [↗](#)

Tech Stack: HTML, CSS, JavaScript

- Built and deployed a **live e-commerce website from scratch** using **HTML, CSS, and JavaScript** to support a small crochet business, with **real customer orders placed** through the site.

YŪGEN - The Slow Social App [↗](#)

Tech Stack: HTML, CSS, JavaScript

- Designed and built a **demo prototype** of a slow, empathy-centered social web app using **HTML, CSS, and JavaScript**, replacing likes and metrics with emotional expression.
- Implemented a **demo account system** to preview the experience (no persistent data storage) — including **short reflective posts paired with feelings, empathy-based reactions, and intentional, ephemeral conversations** in place of traditional social feed mechanics.
- Demonstrated how **mindful UX design** can reduce digital anxiety and encourage authentic connection, as an alternative to engagement-driven social platforms.

EXTRACURRICULAR ACTIVITIES

Co-Head, Photography Team, Career Development Cell: Led the team in covering placement drives, workshops, and campus events, demonstrating **leadership, teamwork, and coordination**.

Competitive Swimmer: Represented school at **CBSE & DAV Nationals**, demonstrating **discipline**.

Trained Bharatanatyam Dancer: Developed **creativity, dedication, and stage confidence**.
